The 2022-built, 15,264 TEU container ship CMA CGM Symi was hit by a suspected Iranian drone in the Indian Ocean, according to an American defense official.

The vessel, which is sailing under Malta's flag, was suspected to have been targeted by a triangle-shaped, bomb-carrying Shahed-136 drone while in international waters, and according to [AP report](#), the drone exploded, causing damage to the boxship, but did not injure the vessel crew members.

The ship is owned by an Israeli billionaire.
