

UPDATE n°II: Situation in the Red Sea and Notice of Force Majeure

SAFETY AND SECURITY

The CMA CGM Group remains deeply concerned about the attacks on commercial vessels unfolding in the Red Sea Region. Over the past few days, we have taken preventive measures to ensure the safety of our crews and our vessels navigating these waters.

Accordingly, CMA CGM has decided, in accordance with the clause 10 of its bill of lading, to reroute some of its vessels currently sailing to and from U.S., to and from North Europe and to and from Asia or Indian Subcontinent via the Cape of Good Hope at the southern tip of Africa.

All others CMA CGM containerships in the area that are scheduled to pass through the Red Sea have already been instructed to reach safe areas and pause their journey until further notice.

CMA CGM is taking all necessary steps to preserve its transportation services for its customers.

We will continue to provide updates on regular basis.
