Ocean Network Express (ONE) has achieved another milestone with a sixth consecutive record-breaking load, this time aboard the ONE Infinity.

Last week, the vessel set a new record load of 22,206 TEUs during its visit to Singapore.

This achievement represents the culmination of six successive record-breaking loads carried by all our cutting-edge 24K vessels, which were integrated into ONE's fleet last year.

"We would like to thank our customers and our Magentians who have helped make this possible. We would not have been able to achieve this milestone

without the support of our customers and partners as well as the close collaboration and teamwork across ONE," stated Yuji Otsuka, senior vice president, of Global Vessel Operations.
