MSC Biofuel Solution

At MSC we are committed to achieving net zero by 2050.

Climate action is a global imperative, requiring collective action as we navigate our Journey to Net Zero. MSC Biofuel Solution is a carbon insetting programme that delivers CO₂ savings achieved within the shipping value chain.

Work with us to reduce the carbon footprint of your supply chain. Together we can play our part in the global energy transition and create more sustainable supply chains.

Episode 1

“From Ambition to Action”

**Meet Allen Clifford, MSC Executive Vice President
to know more about MSC Biofuel Solution.**

Our destination is clear.
Let's navigate our journey
to net-zero, together.
