

# Enabling Sustainable Supply Chains Using Biofuel

---

MSC plays a crucial part in decarbonizing logistics, by working together with partners and customers all along the supply chain to find and apply solutions at scale. With MSC Biofuel Solution we are offering you the opportunity to join forces to reduce the carbon footprint of your supply chain and achieve your increasingly ambitious climate targets (scope 3 emissions).

It's a win-win approach to move from ambition to action: MSC bunkers sustainable biofuel, and you reap the CO<sub>2</sub> savings.

## Episode 2

### “From Ambition to Action”

**Meet Allen Clifford, MSC Executive Vice President  
to know more about MSC Biofuel Solution.**
