

Discover Our Latest Product Enhancements!

Dear Customer,

Since its launch in November 2020, our **BL Draft Approval solution** has gained an ever-growing number of enthusiastic users – perhaps including you!

Now we've **redesigned the tool** to give it an **even better structure for reviewing and amending your documents**, making your workflow even more streamlined. More specifically, the **new screen now dedicated fields for cargo descriptions, marks and numbers, weight, volume, and more.**

Plus, to help you get up to speed fast with the updated tool, we've just **released a new tutorial video** showcasing its latest features.

More from Our Online Business Suite:

Easily Navigate through Your Quotation List

We're thrilled to announce that we've also **updated our quotation list** to make

navigation even easier for you! Find all the quotation details by **simply clicking on the quotation number** in the overview.

Watch out! In a few days, with the new advanced options, you can also **filter for quotations containing in-gauge cargo, dangerous goods or additional services**, such as Ship Green. Looking for certain commodities? Don't worry – you can filter for that, too!

Get Your Quote for Inland Transports

Discover the power of a fully integrated shipping experience! By **offering Quick Quotes and Quick Quotes Spot for the inland transportation** legs, we are delivering a solution that is as comprehensive as it is convenient – and takes the complexity out of shipping. Harness the power of our online tools, and **let your cargo's journey enjoy the smooth sailing** that you've come to expect from Hapag-Lloyd.

Embrace Sustainability with an Even Simpler Ship Green

You can now **add Ship Green directly in the quotation process** when using Quick Quotes Spot! And, of course, you can also still add **Ship Green** to your existing bookings.

With **Ship Green**, you can proactively **reduce your well-to-wake emissions** by supporting the transition to biofuel in our fleet. The service is available globally across all voyages, for dry cargo, and reefer and is easily bookable. Simply add **Ship Green** to your booking and **reduce 25, 50, or even 100% of the ocean-leg emissions**. Join us on our journey to a greener supply chain and in our efforts to make shipping climate-neutral!
