

PANZ Service - Port Rotation Change - MAERSK RUBICON 403S/408N

7 March 2024

Australia New Zealand Asia Pacific

Teilen

Due to delays to berth availability at Melbourne, please note that the schedule for MAERSK RUBICON 403S/408N will be updated with a port rotation change. The vessel will now call Adelaide prior to Melbourne to mitigate any further impact to PANZ scheduling.

- Adelaide and Melbourne cargo planned for load/discharge will be subject to new ETA/ETDs as per below, except ex-Melbourne to Adelaide booked cargo which will be updated to the next available PANZ/Greater Australia Connect vessel (to be advised).

The revised (AU port) schedule for MAERSK RUBICON 403S/408N is as follows:

Port	ETA-ETD*
Sydney	10-12 Mar
Adelaide	15-16 Mar
Melbourne	17-19 Mar

*Indicative ETA/ETDs

Please refer to notices published by 1-stop and terminals for all informational updates regarding revised receipt and delivery periods.
