

TS Lines returns SWS for container ships

Shanghai Waigaoqiao Shipbuilding has entered into shipbuilding contract with Taiwan-based TS Lines for the construction of four boxships.

Katherine Si | Jun 12, 2024

The deal includes two [methanol](#) dual-fuel 14,000 teu boxships and two 7,000 teu boxships. Developed by Waigaoqiao Shipbuilding, the methanol-ready containerships will significantly reduce carbon emission and operational costs.

Upon delivery, the vessels will be deployed on Transpacific or Far East - South America services. Last year, TS Lines disposed several vessels and withdrew from oceangoing routes.
