

CMA CGM to enhance its NWUK & SCUK

services

SERVICES UPDATES

We are thrilled to announce our customers significant enhancements to our NWUK and SCUK services connecting Spain via the port of Bilbao with Ireland, the UK and the Netherlands, effective from June 21st, 2024. These improvements not only aim to serve you better but also demonstrate our dedication to expanding and strengthening our short sea door-to-door product across Europe.

To guarantee unparalleled schedule reliability, we are deploying an additional vessel and operating 4 services with 5 vessels. This unique market offering from Bilbao to the UK and the North West continent is designed to meet your needs with precision and efficiency.

Service enhancements include:

- **Reliability Boosted:** Now with five vessels in rotation, ensuring four reliable departures weekly from Bilbao.
- **Predictable Schedule:** Count on our consistent, fixed-day departures.
- **Increased Liverpool Trips:** Three weekly sailings to Liverpool for enhanced service.
- **Efficient Transshipment:** Quick connections at Rotterdam to Scandinavia and the Baltics.
- **Dublin Specialization:** Departures optimized for the fast transit of perishables.
- **Extensive Rail Network:** Network of block trains from key areas in Spain to Bilbao.
- **Ample Container Access:** High availability of both ambient and reefer 45 HCPW containers.
- **Comprehensive Logistics:** Benefit from our cross-docking and warehousing services.

- Friendly Shipping: More sustainable than road transport, reducing environmental impact.

The new rotation begins with m/v "ENCOUNTER" departing from Bilbao on 21/06.

CMA CGM Strengths

- **Enhanced Reliability:** Four fixed-day weekly departures from Bilbao to the UK, Dublin and Rotterdam, with premium fast transit times
- **Increased Frequency:** Three weekly departures to Liverpool for greater service reliability
- **Smooth Transshipment:** Easy connections at Rotterdam to Scandinavia and the Baltics
- **Sustainability and Efficiency:** Frequent block trains from Spain to Bilbao, reducing CO2 emissions, and end-of-week departures to Dublin for expedited transit of perishables
- **Comprehensive Services:** Ample equipment (ambient and reefer containers), cross-docking, warehousing, and a greener alternative to road transport
