Increased Congestion Surcharges for Carrier's Haulage transports

Dear valued customer,

due to the very tense situation at the German ports, the delays at seaport terminals including loading activity interruptions as well as landside delivery delays, the capacity of the Hamburg, Bremerhaven and Wilhelmshaven gateways continues to be under pressure.

In view of the ongoing high waiting times at the terminals and the associated cost increases by vendors we will increase the Intermodal Congestion Surcharge as follows:

Rail via Hamburg, Bremerhaven and Wilhelmshaven, Inbound (ICS) and Outbound (ICO):

EUR 25 per 20' container, effective date July 5th, 2024

EUR 50 per 40' container, effective date July 5th, 2024

Direct Truck via Hamburg, Inbound (ICS) and Outbound (ICO):

EUR 60 per container, effective date July 5th, 2024

In case of further questions please do not hesitate to contact your local Customer Service and Sales representatives.

Thank you for your understanding and continued support of OOCL.

Sincerely yours,
