6th June 2024

As sun brightens our days in June, we shine a light on the latest market developments in this month's [Europe Market Update](#). We dive into the challenges of [CBAM compliance](#) and explore how European companies are adapting their [sourcing strategies to build resilience](#) amidst global disruptions. We partner with a [Danish retailer](#) to decarbonise their growing supply chain, and set out on a journey to bring [lower-emissions logistics](#) to the UK.

Keeping Up With CBAM Deadlines

The number of European businesses meeting the CBAM reporting deadlines highlights concerns about the readiness to adapt to new regulations. Find out what you need to know about the increasingly complex reporting and the cost of non-compliance.
