Customer Advisory - Port of Houston Closed/Operations Status

Dear Valued Customer,

Email and phone responses are delayed for our US based customer service team and we are handling urgent cases at the moment. Most of the team is without power/internet due to the hurricane Beryl. **Please see below for an updated status from the Port of Houston.**

After conducting preliminary assessments of our facilities, power, and systems, all Port of Houston terminals will remain closed tomorrow (**Tuesday, July 9, 2024**).

We will continue to assess and repair damage this afternoon and tomorrow and will send an update by 4 PM CT tomorrow if there are any further disruptions to operations for Wednesday.

Feel free to contact us sales@mllnet.com for any questions.

Best Regards,
Maersk Line, Limited
