Customer Advisory - Houston Team Without Power

Dear Valued Customer,

Email and phones responses are delayed and we are handling urgent cases at the moment. Most of the team is without power/internet due to the hurricane Beryl.

The eye of the storm is just now passing through and it will get a little worse over next hour or so and don't expect the power to be backup anytime soon. Will keep you updated with status.

Feel free to contact us sales@mllnet.com for any questions.

Best Regards,
Maersk Line, Limited
