

Even more transparency thanks to EPOS events

Dear Customer,

Our **“Live Position”** solution offers you a new tracking experience with our intelligent container fleet by letting you monitor your container in real-time along its entire journey – whether by ship, rail, or truck. Based on your needs, we have enhanced the tool for you. Thanks to the latest update, you can now also see the EPOS (Equipment Position and Status) events such as Gate in/out, arrivals, departures and discharges directly in the Live Position tool. This increases the transparency of the current status of your shipment even more and simplifies your workflow since you get all the information you need at a single glance.
