The vessels are scheduled for delivery in 2027.

The 4,300 teu containership is the representative middle-size vessel product of [CSSC](#) Huangpu Wenchong, and the shipyard has already secured sixteen vessel orders of this type.

“The feeder containership construction market share of Huangpu Wenchong has ranked the first place in global market over a long period. With the signing of batches of 4,300 teu boxships, Huangpu Wenchong has become the main force in building this type of ship,” commented Huangpu Wenchong.

TS Lines operates a fleet of over 40 containerships. The company recently placed an order at Shanghai Waigaoqiao Shipbuilding for the construction of two 14,000 teu and two 7,000 teu containerships for fleet optimization.
