

Intra Europe Trade Ibesco Service Adjustments And Vessel Schedule Updates

[EUA Advisory](#)

Sep 13, 2024

Dear Valued ONE Customer,

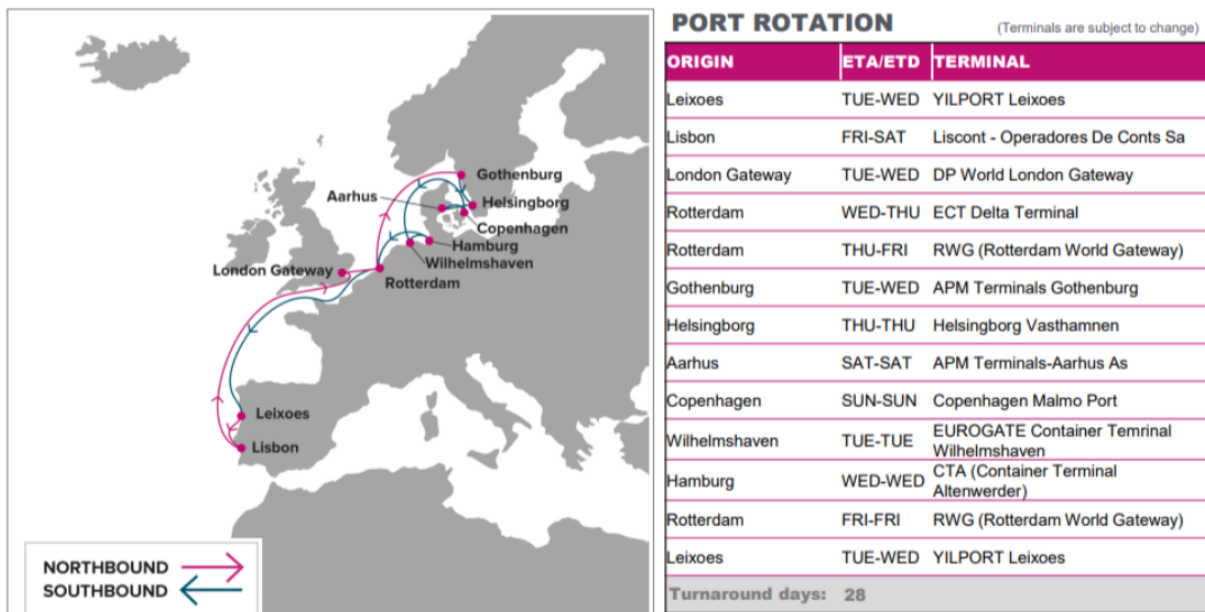

We would like to inform you of the below changes to the IBESCO service aimed at enhancing operational efficiency and maintaining schedule reliability.

- Effective immediately, Ibesco vessels will call at port of Gothenburg before Helsingborg. This adjustment is set to improve schedule reliability for our customers in Sweden.
- Due to ongoing congestion at Rotterdam ECT, we will implement a new rotation with effect from week 41.

New Rotation: SCAN - DEWVN - DEHAM - RWG - Portugal

This change is designed to reduce delays and improve overall service efficiency.

Please refer to our updated schedule for further details.

- M/V PBET0087S will phase out in Rotterdam on week 38, performing discharge operations only. The vessel will be replaced by M/V WGGT0062S, which will handle loading operations at both ECT and RWG terminals. This transition will help maintain service continuity.
