ILA Strike - Update

Ports and Terminals

On **October 3, 2024**, USMX and the ILA reached a tentative agreement and will extend the Master Contract until January 15, 2025. As a result, **operations resumed at all major terminals on the US East Coast and Gulf**. The Local Port Charge (LPC) which was scheduled to take effect on October 11, 2024, will be **suspended and will not be implemented at this time**.

CMA CGM is working closely with its partners to ensure operations can resume promptly. Vessels currently waiting off terminals will berth and be operated on a "First In First Out" basis.

Please find below more information on gate reopening and vessel operations schedule. Demurrage & Detention will resume assessment at the rate tier level in which assessment was suspended from the moment gates re-open (see below table).

You can access the latest information on your shipments on our website's "[Track my Shipment](#)" page. The latest information on ETA is available on our [business website](#) or with your dedicated customer service.
