

Brand-New Design for our "New Quote" Section in the Online Business Suite

Dear Customer,

We are ending the year 2024 on a very high note and are proud to **present our brand-new design** for our BETA "New Quote" section in the [Online Business Suite](#). Say hello to a **more intuitive navigation** to view your offers and get quotes by [Quick Quotes](#) and [Quick Quotes Spot](#) as well as customizing the offer with our [Additional Services](#).

The new app **shows you all available offers in a single screen** – without having to choose between Quick Quotes and Quick Quotes Spot first. Simply **enter your search details** like routing, validities, container type and commodities to **see all available offers to choose from** and the future development of freight rates. Apart from that you are able to **customize your quotes with our Additional Services** like [Live Position](#) and [Ship Green](#).

Did you know that you can also get a quote for different container sizes at the same time? In the search screen, simply tick the checkbox "*Include alternative container sizes*". You will be re-directed to our previous Quick Quotes flow for now until we have a fully fledged solution in our BETA version soon.

Customized quotation has never been easier and more convenient!
