

ONE Launches East Coast South America Express 2 (SX2) Service Connecting the Far East to South America

Advisory

Jan 16, 2025

Ocean Network Express (ONE) is excited to launch the new East Coast South America Express 2 (SX2) service, connecting key ports in the Far East with major hubs on the East Coast of South America, further strengthening ONE's presence in the Latin America market. In addition, ONE will offer a dedicated River Plate feeder service, connecting via Rio Grande, with reliable and competitive transit times to Argentina and Uruguay.

The introduction of SX2 with River Plate feeder service underscores ONE's commitment to growth and development in the region, offering an efficient solution for transporting cargo between the Far East and South America and meeting the growing demand for trade between these regions.

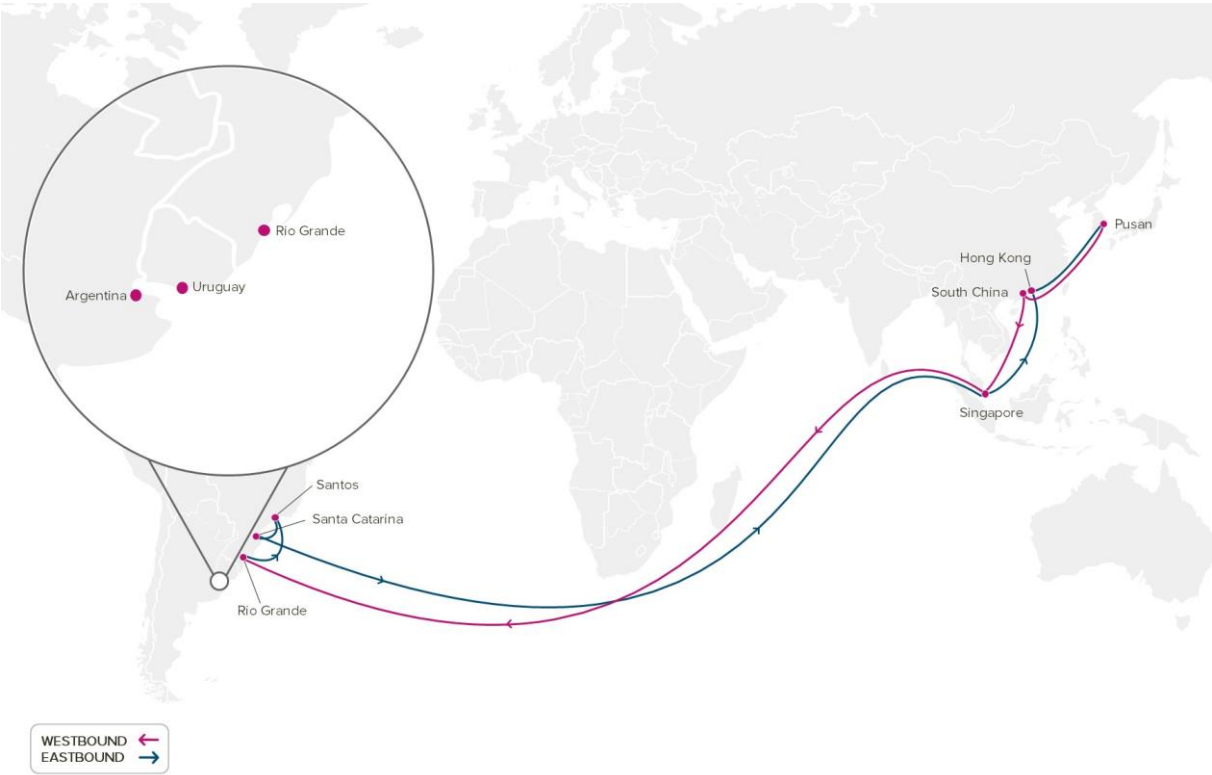

Service Rotation

East Coast South America Express 2 (SX2)

Pusan – South China – Singapore – Rio Grande – Santos – Santa Catarina – Singapore – Hong Kong – Pusan

River Plate Feeder Service

Rio Grande – Argentina – Uruguay – Rio Grande

The SX2 service is expected to commence operations in April 2025, with further details to be announced separately.
